STATEMENT OF PURPOSE

Our purpose was to acquaint youths of the black community with the ceremonies of death, the divergence of death and interment rites among different ages, stages and cultures and to generate a resurgence of pride in Omaha's black history.

RESEARCH METHODOLOGY

We began by extracting from records all names followed by the notation, "col." About 200 names surfaced. We later learned that this racial notation was not always used. Sometimes the name of the mortuary responsible for the service was entered. In some cases, no clues as to race were on record.

On our next examination of records, we pulled all those names followed by "Myers" and "Thomas" because these mortuaries serve a predominantly black clientele. However, during personal interviews, it was discovered that other black mortuaries once served the community. Names followed by these mortuaries were added to our lists. Microfilm research produced more names. Our final number of black burials at PHC exceeds 800.

Though our research techniques were not among the most sophisticated, the information compiled provides Omaha with its only guide to black burials at PHC. A copy will be housed at the Black Heritage Museum and amended as new information becomes available.

Hopefully our project will excite the community, raise questions, cause us to wonder, to remember. If this happens, our attempt to touch black yesterday, today and tomorrow will have been worthwhile.

DEDICATION

This work is dedicated to "Julia" and all the "unknown colored" buried at Prospect Hill Cemetery. May it kindle the spark that will shed light on their lives and light the way for future generations of black Omhans in search of self.
